The newest OACYS tower is on Tennessee Knob

It's official!

Our newest tower site, in the Terra Bella-Ducor area, is now fully operational.

This tower, located at the top of Tennessee Knob, will provide better coverage and stronger signal to some of our farthest reaches.

It will even improve service to existing areas it doesn't directly serve.

That is, by unloading and relieving traffic (and potential interference) from towers closer to Porterville – which have been boosting signal strength in order to reach more distant customers in several areas south of Highway 190 (including Terra Bella and Ducor) – the overall quality and efficiency of our network is improved.

In other words, while this new tower slightly increases our coverage range, its primary purpose is to provide better and more reliable service to our customers.

That's just what we do.

OVER 2 *BILLION* VIRUSES, SPAM, AND PHISHING ATTEMPTS HAVE BEEN STOPPED BY THE OCS CENTRAL SYSTEM

Free Windows 10 upgrade offer has ended

The free upgrade to Windows 10 ended on July 29, 2016. If you missed out on this one-year offer, even after all of Microsoft's nagging reminders, you probably weren't interested – or perhaps your computer didn't have the resources required for Windows 10.

After July 29, upgrades will be available at **microsoft.com** for $119 (Home Edition) or $199 (Pro Edition).

Or, as may more likely be the case for those who chose to pass on the free offer, your next new computer, laptop or tablet will come preinstalled with Windows 10.

OACYS Hosted Voice Service

Our newest product, Hosted Voice Service (HVS) replaces traditional phone companies and expensive PBX equipment with a reliable, custom business-class phone system to specifically meet your business needs. Best of all it is 100% hosted and supported by OACYS, with all of the quality and reliability you've come to expect from us.

   OACYS HVS provides the expertise and local support that allows your business to meet and handle increasing call flow from your clients. This will save you time and money, allowing you to focus on business growth rather than the management of expensive, time consuming PBX hardware.

   For more information, please call our office at 781-4123 and find out how OACYS Hosted Voice Service can save your business money and headaches -- get started today!

> *Remember!!!* The new OACYS Bandwidth Prioritization System **eliminates** excess usage surcharges … tell your friends and neighbors!

Fan Mail

"Your service is great! I was with another local wireless ISP previously and had nothing but problems. OCS is very professional and you have superb customer service." -J/KH

How to reduce Netflix delays and buffering

Did you know? You can change the video quality setting in your Netflix account and dramatically reduce delays and buffering.
   The default setting is "Best quality," which consumes the greatest amount of bandwidth and can significantly increase delays and pauses while your movie continues downloading.
   By changing this setting to "Good" you can reduce buffering, improve your viewing experience, and chances are you'll hardly notice any difference in viewing quality … give it a try!

Your Account & Help
Manage video quality   NETFLIX

- ◉ **Good quality** (up to 0.3 GB per hour)
- ◯ **Better quality** (up to 0.7 GB per hour)
- ◯ **Best quality** (up to 1 GB/hr, or 2.3 GB/hr for HD)

(Save)   (Cancel)

Tired of satellite? You're not alone … many of our new OACYS accounts are customers switching from satellite, DSL, and others. Tell your friends and receive a referral credit for up to a month's free service.
